

Project Partners and Contributors

The vegIMPACT project is developed and implemented by a dedicated team of specialists with extensive experience in their respective fields of expertise and with experience from previous projects in Indonesia. They co-operate with Indonesian experts and representatives of the public and private sectors, in order to take the activities to a higher level and to replicate and expand the results in various regions of Indonesia.

Participation of private parties is imperative, as to ensure that activities are continued in future production and marketing practises.
